SUMMARY

Final-year Computer Science & Engineering student specializing in Machine Learning and Artificial Intelligence, with hands-on experience building end-to-end AI systems spanning NLP chatbots, computer vision, and predictive modeling. Comfortable across Python, deep learning, and IoT hardware. Seeking a software / ML engineering role where I can turn applied AI research into practical products.

EDUCATION

SRM Institute of Science & Technology, Kattankulathur B.Tech · Computer Science & Engineering	2027 CGPA: 7.35 / 10
Vivekananda Vidyalaya, Arakkonam Class XII · State Board (PCMB)	2022 85%
Vivekananda Vidyalaya, Arakkonam Class X · Tamil Nadu Board of Secondary Education (MPC)	2020 100%

EXPERIENCE

Freelance Web Developer · Aviate Gym aviate-gym-7x5z.vercel.app Designed and developed a responsive marketing website for a gym client, covering layout, styling, and deployment.	Freelance
---	-----------

PROJECTS

<u>Context-Aware NLP Chat Assistant</u> Built an adaptive messaging assistant that generates context-aware responses and adjusts tone dynamically to conversation flow, reaching 86%+ intent-classification accuracy in testing.	Python, NLP
<u>CNN-LSTM Ecosystem Early-Warning System</u> Developed a hybrid CNN-LSTM model using a novel fractal entropy metric to forecast ecosystem tipping points, achieving 86%+ prediction accuracy on environmental time-series data.	Python, TensorFlow
<u>Neural Architecture Search (NAS) Tool</u> Built a tool that automates neural-network architecture design and evaluation, discovering candidate models that achieved 86%+ accuracy on benchmark tasks.	Python, PyTorch
<u>IoT-Based Football Performance Analytics System</u> Built an IoT training assistant that tracks touches, passes, shots, and movement in real time via connected sensors, delivering personalized drill feedback with 86%+ event-detection accuracy.	Python, IoT, HTML/CSS

TECHNICAL SKILLS

Languages	Python, Java, C++, C, C#, TypeScript, SQL
ML / AI	TensorFlow, PyTorch, scikit-learn, XGBoost, pandas, NumPy, Matplotlib, CNN, LSTM
Web & Backend	React, Next.js, Flask, HTML, CSS
Cloud & Tools	AWS, Microsoft Azure, Docker, Git, MySQL, IoT, Arduino

CERTIFICATIONS

AWS Certified Cloud Practitioner (CLF-C02)	Udemy
Microsoft Azure Fundamentals (AZ-900)	Udemy
DevOps Deployment Automation with Terraform, AWS & Docker	Udemy
Java Masterclass 2025	Udemy
C++ Programming: Beginner to Advanced	Udemy

ACTIVITIES & COMMUNITY

Tech Hackathon · Participant, SRM	Oct 2024
-----------------------------------	----------

LANGUAGES

English	Professional Working Proficiency
Tamil	Native Proficiency
Urdu	Native Proficiency
Hindi	Professional Working Proficiency
German	Elementary Proficiency
